

**ENGINEERING,  
CONSTRUCTION  
AND OPERATIONS**

## PROJECT MANAGEMENT SERVICES

- EPC Turn Key - Engineering, Procurement, Construction
- EPCM - Engineering, Procurement and Construction Management
- PMC - Project Management Consulting
- Operations short and long-term
- Maintenance - Preventative, Predictive, Defect Elimination

## ENGINEERING SERVICES - UPSTREAM, MIDSTREAM & DOWNSTREAM

- Feasibility studies
- Due diligence for projects and assets
- FEED - Front End Engineering Design
- Detailed Engineering
- Owners Engineering

## FIELDS OF EXPERTISE

### Power Generation

We provide comprehensive Engineering & Project Management Services from the earliest project stages up to the start up

- Single and Combined Cycle Power Plants
- Combined Heat and Power
- Coal Fired Power
- Electrical Substations
- Small Hydro Power
- Renewable energy
- Natural Gas and Propane Generation

## OIL & GAS

### UPSTREAM & MIDSTREAM

- Tank battery design
- Salt water disposal
- Well site facilities & gathering systems
- Separation (oil, gas, water)
- Natural Gas processing - Nitrogen, CO<sub>2</sub>, and NGL extraction
- Flare and lightning strikes emergency systems
- Pipelines, terminal facilities and storage systems
- Water management and treatment
- Infrastructure, power, and utilities
- Offshore Topsides for fixed & floating
- facilities: 30 to 300 feet, Jackets substructures

## DOWNSTREAM

### Productive engineering for asset lifecycle management

- Crude stabilization and separation
- Solvent extraction
- Gasoline treatment
- Sulfur recovery and treatment
- Blending and storage systems
- Flare and utility systems
- Clean fuels: Gasoline and Diesel
- Storage and handling
- Maintenance management

## GAS PRODUCTION

### Optimizing design to match CAPEX & OPEX needs

- Gas Conditioning for compressors
- Compressor stations - Central Delivery points
- Design all infrastructure for Gas Plants
- Offshore Gas Platforms expansions
